1 Introduction

This document is a guide to the functions and processes within Alberta Prorate IRP Information System (PIRPS) for carriers using Online Services. Online Services will be accessed using a URL.

Prorate is a term applied to the method for commercial vehicles to pay registration fees for multiple jurisdictions to one base jurisdiction based on the ratio of the distance travelled in each jurisdiction to total distance travelled. This ratio is used to apportion a jurisdiction's fees and taxes to the vehicle. Eligible jurisdictions are participants within the International Registration Program (IRP). Participants include the District of Columbia, the 48 continental United States, and all 10 Canadian provinces.

The Prorate IRP – Online Portal project was initiated to allow carriers access to their fleet information, allow entry of renewal distance, modify weight groups and request new licence plates, etc.

2 System Requirements

PIRPS was created using Java pages. Java allows users to run AB Prorate IRP System from any computer with Internet access via a browser. Currently, the only supported browser is Internet Explorer 6.0+. All reports are displayed using Adobe Acrobat Viewer 7.0.5 in a pop-up.

All client machines will require Internet Explorer 6.0+.

All client machines will require Adobe Acrobat Viewer 7.0.5+

Note: If you have a pop-up blocker installed, you must allow pop-ups for the AB Prorate IRP site.

3 Document Conventions

	The checkmark bullet will be used to identify specific validations or business rules that are applied on the screen or during the process.
	The information bullet will be used to identify any special information about the screen, report or process.
	The warning icon beside a vehicle, or vehicles, indicates an error. This error must be corrected before supplement can be submitted to Prorate.

Italics blue text will be used to denote field names, Vehicle Make, Jurisdiction.

Bold text will be used to denote menu and screen names

Square brackets, [] will be used to denote buttons and hyperlinks, [Save].

Single quotation ' ' marks will be used to denote field values, status = 'Pending'.

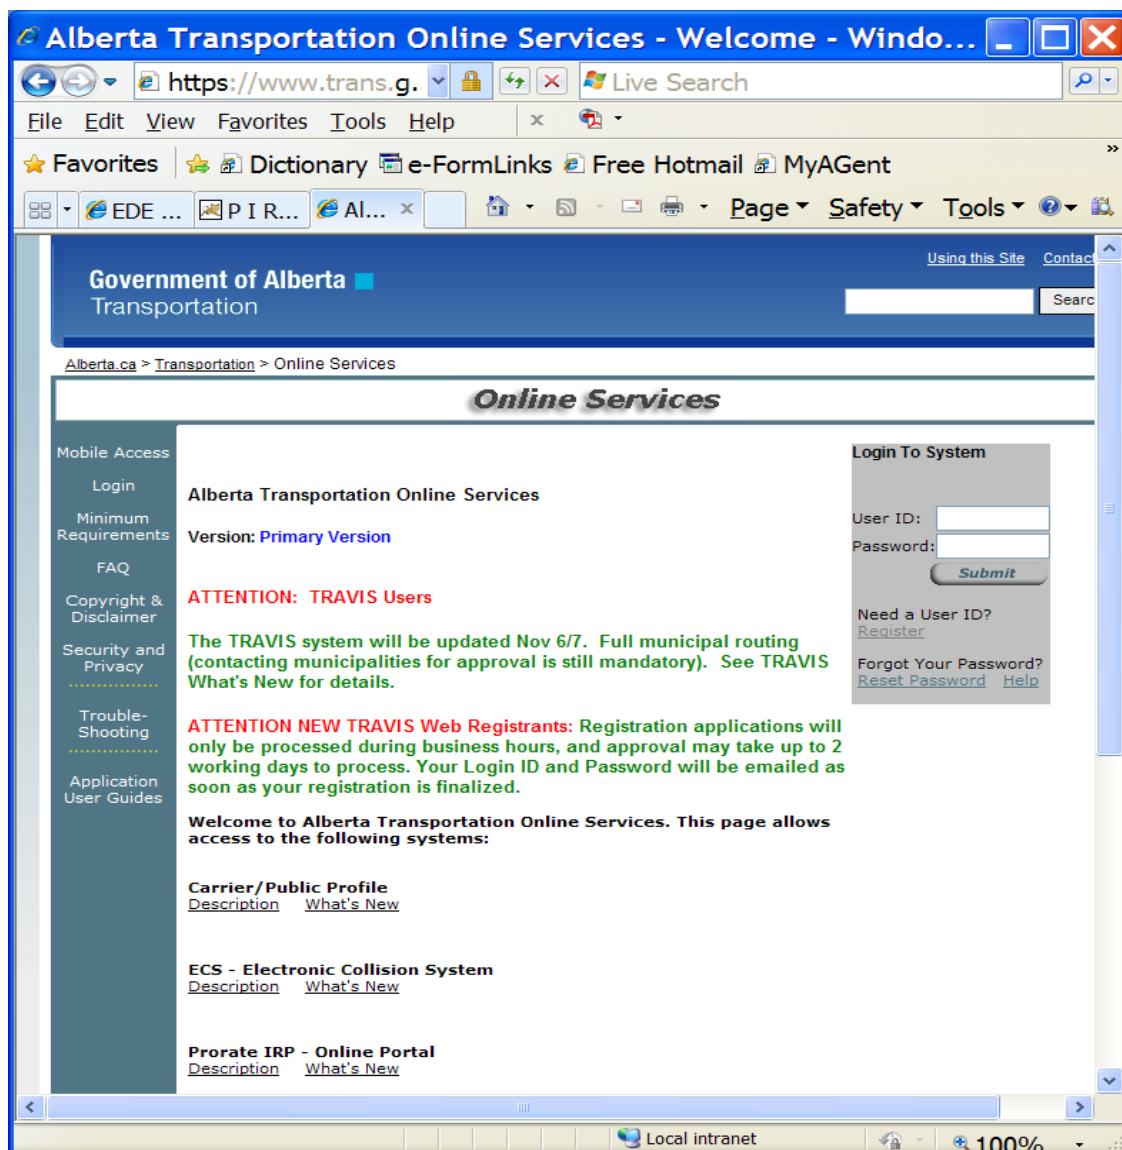

NOTE:

Screens and reports within this document are graphical examples that have been manufactured to represent a possible solution. Actual screens and reports from system development may differ.

4 Getting Started

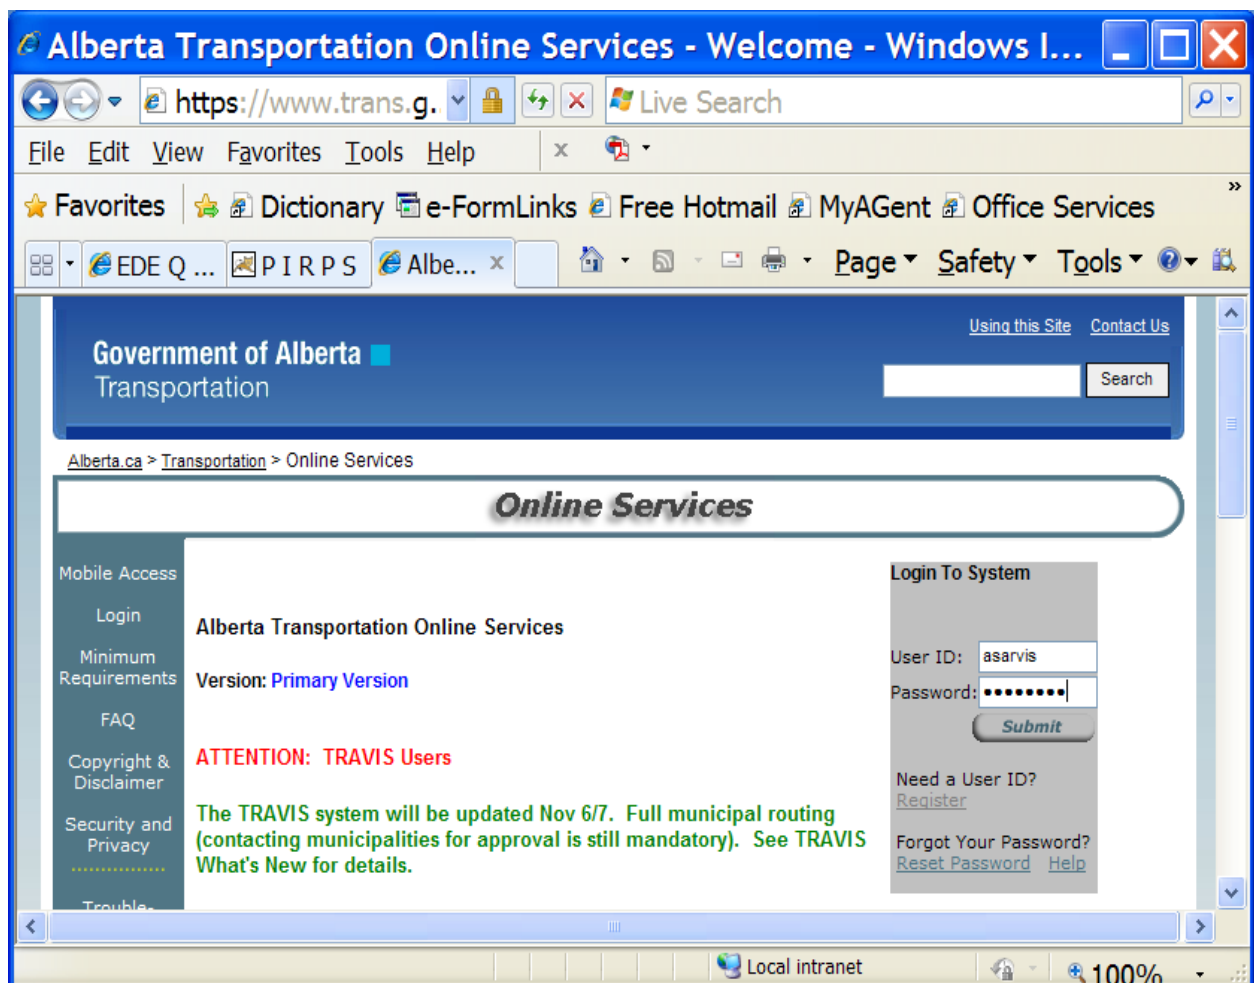

4.1 Registration

1. In order to use the online system clients will need to login and register at:
www.travis.gov.ab.ca [Enter]
2. Select the “Need a User ID” option to obtain a login for Online Services, **or**
3. If you are already registered with Online Services and have a User Id; Login, select My Account
4. Request access to Prorate Services.
5. Once you have completed this process you will receive an email confirming that you have been authorized to access your information.
6. This is the first screen presented in TRAVIS. It validates user id and password combinations and permits or disallows access to different functions with the system.

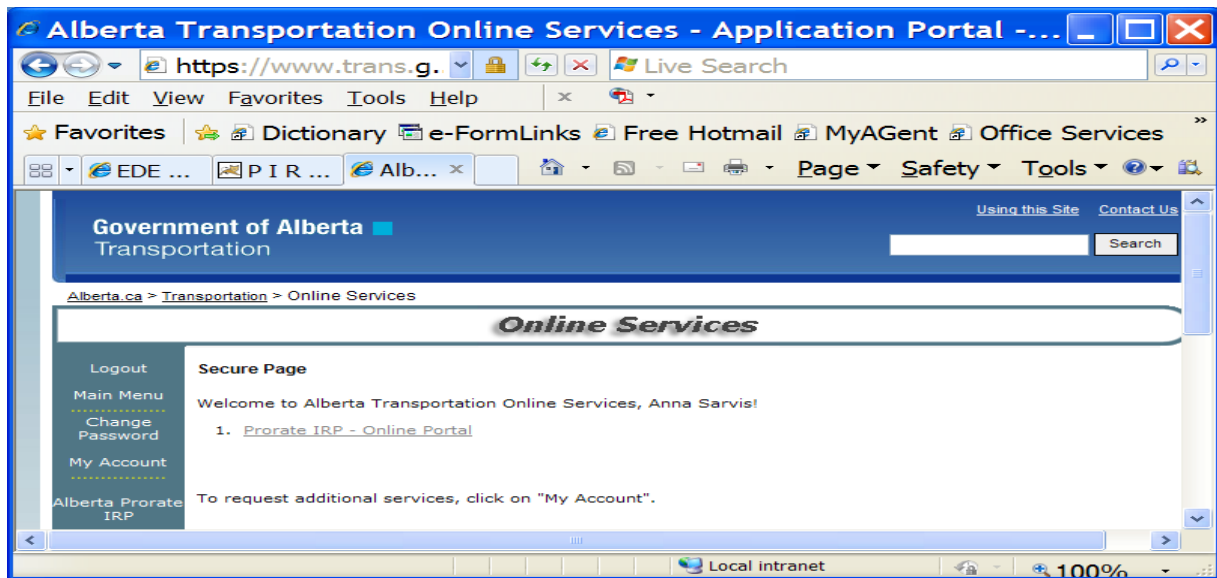

4.2 Log In

1. Enter *User ID*.
❗ Enter your Online Services User ID.
2. Enter *Password*.
❗ Your password will display as dots and not as clear text.
3. Click the [Submit] button.
4. System will validate that the password.
5. If valid the **Online Services Homepage** will open.
6. If not valid the system will display an error message and allow you to enter your *user/password* again.

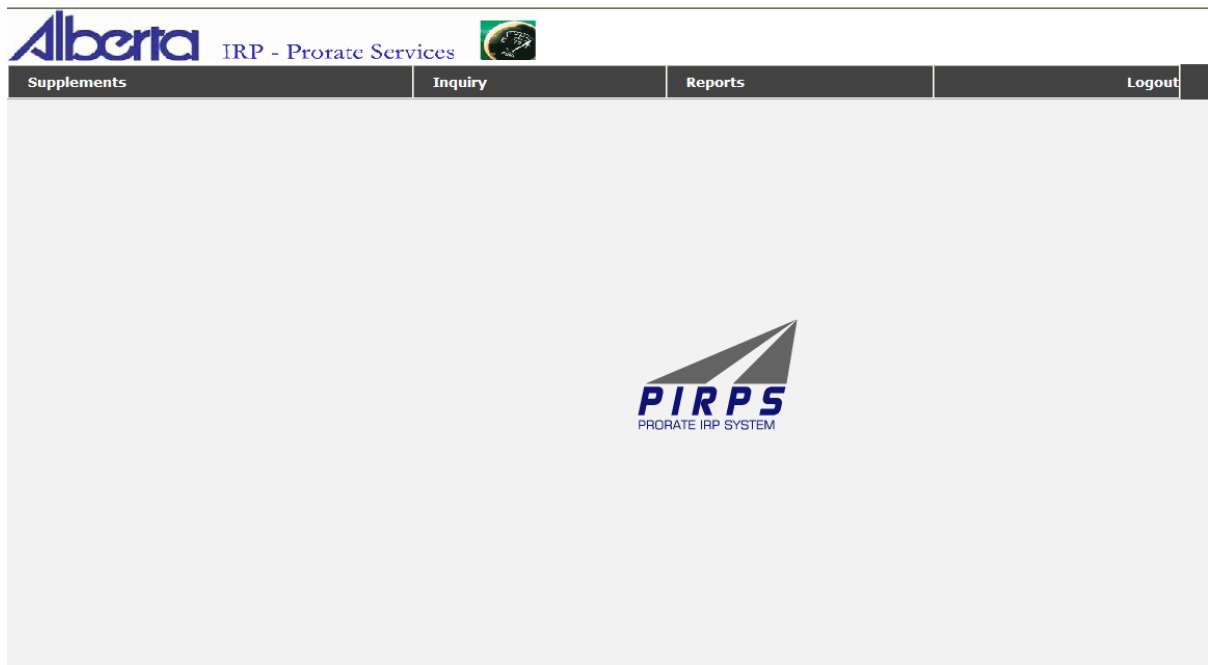

4.2.1 Once logged in, you will click [Prorate IRP – Online Portal]

4.3 Page Layout

4.3.1 Interface Example

4.3.2 Menu Bar

The menu bar is used to navigate the various pages that make up Alberta Prorate IRP.

The menu consists of clickable links that represent various functions within Alberta Prorate IRP. Some of the functions have a submenu that list the pages related to each function under that menu. Clicking on a Menu header will take the user to the first page under that menu.

There are some screens in Prorate IRP – Online Portal that contain a significant amount of data fields for entry by the user. A Tab Control has been implemented for easier navigation. Tabs allow access to functions in sequential order or go directly to a Tab.

4.4 Errors, Warnings, and Messages

Many of the pages allow various operations (add, edit, etc.). If an operation results in an error or data fails an edit check a status message is provided as feedback. Warnings and General messages will also be displayed in different colors.

Below are examples of an operation resulting in Error Messages:

4.4.1 Authorization has not been granted.

4.4.5 Add Jurisdiction Supplement Pending Error

The screenshot shows the 'Add Jurisdiction Supplement Pending Error' dialog box. The dialog box has a title bar 'IRP Prorate' and a close button. The main text inside the dialog box reads: 'Can not create supplement! Fleet has unpaid Add Jurisdiction supplements'. There is a 'Close' button at the bottom right of the dialog box.

The background shows the 'Supplement Search' screen with the following fields and values:

- *MVID: 155036
- *Fleet Number: 10
- OR
- *IRP Account Number: 7903
- *Supplement Type: ---Please select---
- *Fleet Year: 2011
- *Supplement Effective Dt: 2011/4/8
- Buttons: SEARCH, NEW, RESET, RENEWAL
- Carrier Name: (empty field)

4.4.6 Alternate Search Screen

The screenshot shows the 'Alternate Search Screen' with the following fields and values:

5 Portal Supplements

5.1 Overview

Supplements at Alberta Prorate Services includes the annual registration renewal as well as any subsequent amendments to fleets, jurisdictions, etc that may occur during the registration period.

Portal Supplement types include:

- Renewal
- Amend Fleet
- Add Jurisdiction

Within each supplement type there can be any number of the following transactions:

- Delete Vehicle
- Modify Vehicle
- New Plate
- Full Cancel (see ⓘ)
 - ⓘ Delete before effective date – must have same effective date as supplement 1 and may not be combined with any other transaction types.
- Full Document Replacement

Supplements can be accessed directly by entering the MVID or IRP account number, a fleet year, and a fleet number. When the fleet number is not entered, PIRPS provides a list of Fleets for that carrier and year. After a carrier has paid a supplement the data within the supplement is only available for browsing.

5.2 Supplement Status Codes

The supplements proceed through various states as they are entered and updated. The following is the chronological order of Supplement Status codes:

- Initiated – Information is entered for the supplement but has not been submitted.
- Submitted – Information has been entered for the supplement and it has been submitted to the Prorate Office for review.
- Pending – Information is entered for the supplement but a fee notice is not created.
- Invoiced – A fee notice has been generated for the supplement.
- Service – Registry office is processing the supplement.
- Paid – Carrier has paid fees and taxes at the registry office.
- Transmitted – Supplement details have been transmitted to the IRP Clearinghouse.
- Disbursed – All fees and taxes have been distributed to jurisdictions.

❗ Changes cannot be made to a supplement after it has a status of “paid”, “transmitted” or “disbursed”.

5.3 Supplement Search

All supplement processing begins with searching for the correct supplement.

To find a Supplement:

1. Choose **Supplements** from the menu bar.
2. The **Supplement Search** screen will display.

The screenshot shows the 'Supplement Search' interface. At the top, there is a navigation bar with tabs: 'Supplement Search', 'Fleet Contact', 'Jurisdictions', 'Weight Groups', 'Vehicles', and 'Documents'. Below this, the search area is divided into two main sections by an 'OR' label. The left section contains fields for '*MVID:' and '*Fleet Number:'. The right section contains fields for '*IRP Account Number:' and '*Fleet Year:' (with '2011' entered). Below these fields are buttons for 'SEARCH', 'NEW', and 'RESET'. At the bottom of the search area, there is a 'Carrier Name:' field and a 'RENEWAL' button. The bottom of the screen shows a copyright notice: 'Copyright © Alberta IRP Prorate'.

Alternate Search Screen

3. Enter the *IRP Account Number (ie 1234) or MVID* for the carrier.

❶ MVID may be entered in free format (just the numbers)

AND

4. Enter the *Fleet Year*. (default is to current year)

❶ When creating a renewal enter the fleet year prior to the renewal year to retrieve prior year's vehicle, weight, and jurisdiction data.

5. Enter the *Fleet Number* for the carrier.

❶ Select [Search] without a fleet number and PIRPS will display a list of current fleet numbers for the carrier and year (**authorization is fleet specific**). Choose a fleet number from the list and select [Search] again.

6. The **Supplement Search** screen will display with the results.

The screenshot shows the 'Supplement Search' screen with the following elements:

- Navigation tabs: Supplement Search, Fleet Contact, Jurisdictions, Weight Groups, Vehicles, Documents.
- Search criteria:
 - *MVID: 0003-08676
 - *Fleet Number: 6
 - OR
 - *IRP Account Number: 6690
 - *Fleet Year: 2011
- Buttons: SEARCH, NEW, RESET, RENEWAL.

Manual Data Entry:

2. Use the cursor or Tab key to enter *distances* for existing jurisdictions.
3. Indicate if the *distance* is for Prorate and if it is an estimate.

i Enter actual distance in *distance* from the reporting period indicated above.

i Put a ☒ in the Prorate column only for those jurisdictions that you are applying for apportioned registration. All others leave blank.

i Enter estimated distance only if you do not have actual distance for a jurisdiction. To calculate estimated distance refer to “Estimated Distance Methods” available at

<https://transportation.alberta.ca/3168.htm>

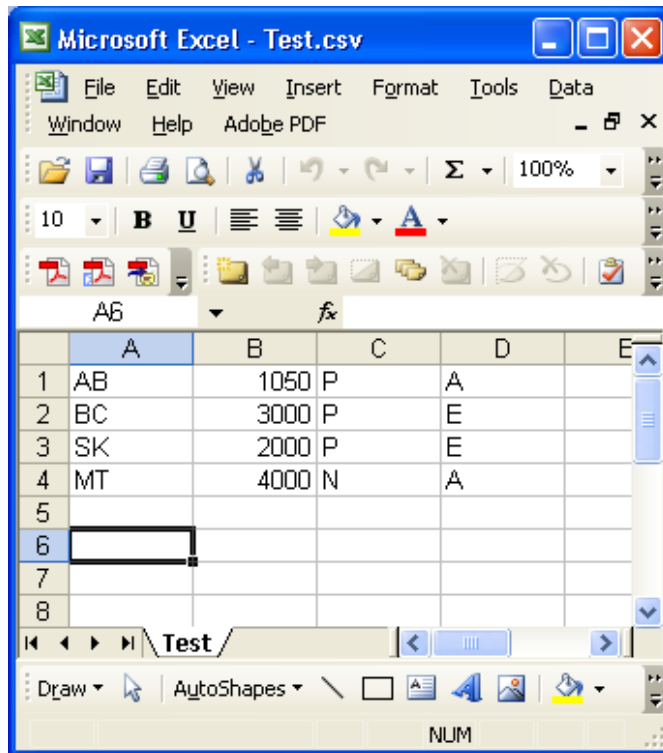

4. [Mouse Click] the delete icon [] at the left end of the row to delete a jurisdiction.
5. Choose the [Calculate/Save] button to save any changes and update the percentages and totals.

Comma Separated Values (CSV)

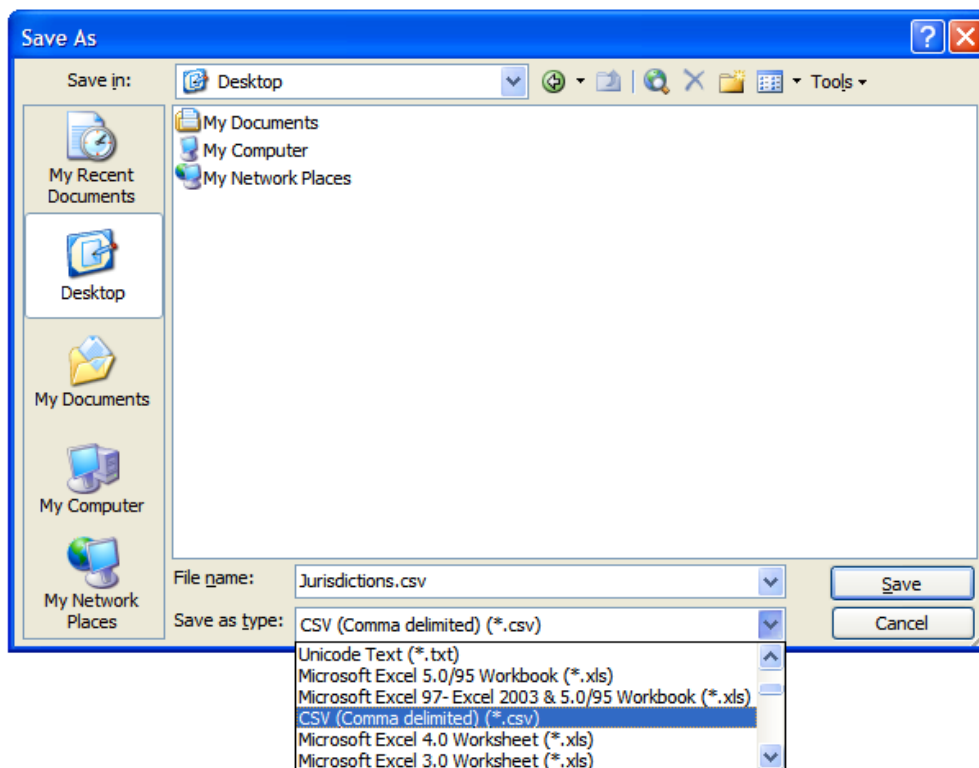

- a. This method is advantageous to carriers that maintain their distance information in Excel.
- b. You will need to have the information formatted in Excel as shown in the example below,

Below these fields are buttons for 'CLOSE', 'SAVE', 'Submit', and 'Modify Vehicle'. The main section of the form contains vehicle details: 'Vehicle Year' (2007), 'Vehicle Make' (STERLING), 'Vehicle Model' (STERLING), 'Vehicle Color' (WHITE), 'Status' (ACTIVE), 'Plate' (), 'Fuel Type' (DIESEL), 'VIN' (2FZHAZCV97AV52996), 'Unit Number' (104), 'Bus Seats' (0), and 'Moves Vehicle Type' (NULL). Below this is a 'Purchase' section with fields for 'Date' (2010/10/05), 'Price (CAD)' (29,500.00), 'Price (USA)' (29,500.00), 'Tare' (8,900 KG / 19,625 LB), 'Axle' (4), 'Weight Group' (2), 'Vehicle Type' (Truck and Trailer), and 'Commodity' (All). There is also a 'New Plate Number' field and a 'Weight Change' checkbox.

7. Enter any missing or changed data into the fields or choose options from drop down list.

i Vehicle data is displayed in **yellow boxes** and cannot be changed via the Prorate IRP – Online Portal. If this information is not accurate, you will need to submit a supplement using the manual process.

Choose the [Save] button to save any changes.

8. Choose the [Close] button to exit without saving any changes.

9. The **Vehicles List** screen will display showing all current *vehicles* in the *Fleet*.

10. Repeat steps 3 through 7 for each vehicle in the fleet that needs to change or delete.

11. Follow the steps to add documents to a supplement:

- Select Documents Tab

- Select [Add document]

- [Browse] file to select backup documents
- [Open] file
- [Submit] button
- Documents are now attached to supplement Steps can be repeated if required for additional backup documents

NOTE: The only acceptable file type for uploading is .pdf

12. If there are no errors and there are no additional changes to fleet data select [Submit] to send the supplement to the Prorate Office.

☒ The supplement will be generated and sent as an e-mail to the in-box prorate@gov.ab.ca

5.5 Amend Fleet Supplement

5.5.1 Find Fleet to Amend

1. Find the Supplement to amend using the search methods previously described in [Supplement Search](#).
2. The **Supplement Search** screen will display with a list of current supplements and their status.
3. Select [New] and the Supplement Search screen will display with a drop-down list for [Supplement Type](#).
4. Select Amend Fleet from the list.

The screenshot shows the 'Supplement Search' screen. At the top, there are tabs: 'Supplements', 'Inquiry', 'Reports', and 'Logout'. Below these are sub-tabs: 'Supplement Search', 'Fleet Contact', 'Jurisdictions', 'Weight Groups', 'Vehicles', and 'Documents'. The 'Supplement Search' sub-tab is active. The screen contains several input fields: '*MVID:' with value '0001-21533', '*Fleet Number:' with value '1', '*IRP Account Number:' with value '7927', and '*Fleet Year:' with value '2011'. There is an 'OR' separator between the MVID and Fleet Number fields, and between the IRP Account Number and Fleet Year fields. To the right, there is a '*Supplement Type:' dropdown menu with 'Amend Fleet' selected, and a '*Supplement Effective Dt:' dropdown menu with 'Amend Fleet' selected. Below these are buttons: 'SAVE', 'NEW', 'RESET', and 'RENEWAL'. A 'Carrier Name:' input field is also present. At the bottom, there is a copyright notice: 'Copyright © Alberta IRP Prorate'.

5. Supplement Search screen will display with a calendar control for [Effective Date](#).

This screenshot is similar to the previous one, but it includes a calendar control for the '*Supplement Effective Dt:' field. The calendar is open, showing the month of April 2011. The date '2011/4/8' is selected. The calendar has a 'Close' button at the bottom. The rest of the screen, including the tabs, input fields, and buttons, remains the same as in the previous screenshot.

6. Use the calendar control to set the *Effective Date* as follows:

- Use the [>] to change month.
- Use the [>>] to change year.
- When the correct month and year are found [mouse click] the day of the month that is needed.

7. Select [Save] after choosing the *Effective Date* and the Supplement Search screen will display with the new supplement.

i NOTE: When you select a date in the future, all subsequent supplements can be dated no earlier than the date you have used. (i.e. you may want to add a vehicle for the 1st of June, however if you then have cancellations they too would be dated for the 1st of June and would not be entitled to the credits for the previous month.)

i NOTE: Supplements can not be created more than 60 days into the future.

8. [Mouse Click] the edit icon [] at the start of the row to edit the supplement.

9. [Mouse Click] the delete icon [] at the left end of the row to delete the supplement.

☒ Confirm before deletion as the record is removed and cannot be recovered.

10. The **Fleet Contact** screen will display.

11. Follow the procedures:

- [Change a Fleet Contact](#) except for:
 - i. Supplement effective date can change.
 - ii. Fleet effective date can NOT change.
- [Update Jurisdictions](#) except for:
 - i. No changes to distances or jurisdictions are allowed.
- [Update Weight Groups](#) except for:
 - i. No changes to weight groups assigned to a vehicle.
 - ii. [New weight groups](#) are allowed.

12. Proceed to the **Vehicles** tab after saving all changes.

6 Inquiry

The Inquiry function of Alberta PIRPS provides a way to review standard information for carriers, vehicles, weight groups, and distances. It avoids having to search for a supplement or produce a report to verify information and eliminates any risk of accidentally updating data.

All of the information displayed is from the PIRPS database.

Information can be accessed by entering the MVID or IRP account number as well as the fleet year. Inquiries that require a fleet number provide a drop down list of available fleets to choose from. The carrier name search allows for full name, partial name, or a “wildcard” (%). A “wildcard” or partial search displays a list of matching carriers from which the desired carrier can be selected.

6.1 Access the Inquiry Menu

To access the Inquiry menu after signing on to PIRPS:

1. Choose **Inquiry** from the menu bar.
2. The **Inquiry Menu** screen will display

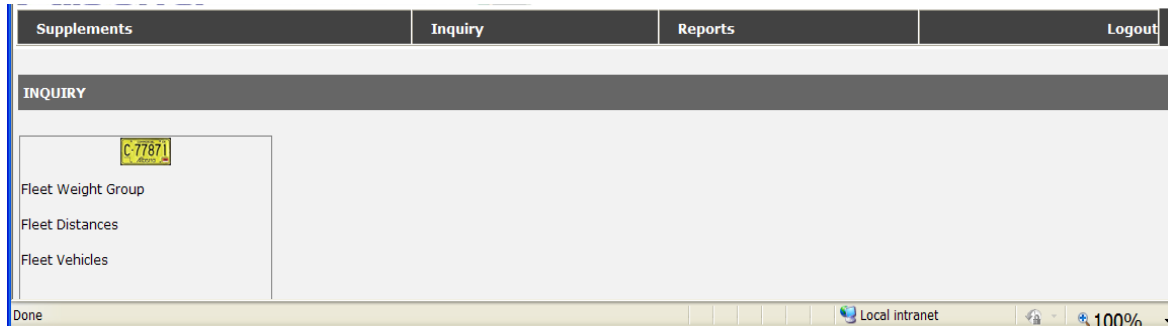

6.2 Three Inquiries are available from the Portal.

- *Fleet Weight Group*
- *Fleet Distance*
- *Fleet Vehicles*

6.2.1 Fleet Weight Group

To view Fleet Weight Group data:

1. Choose **Fleet Weight Group** from the menu.

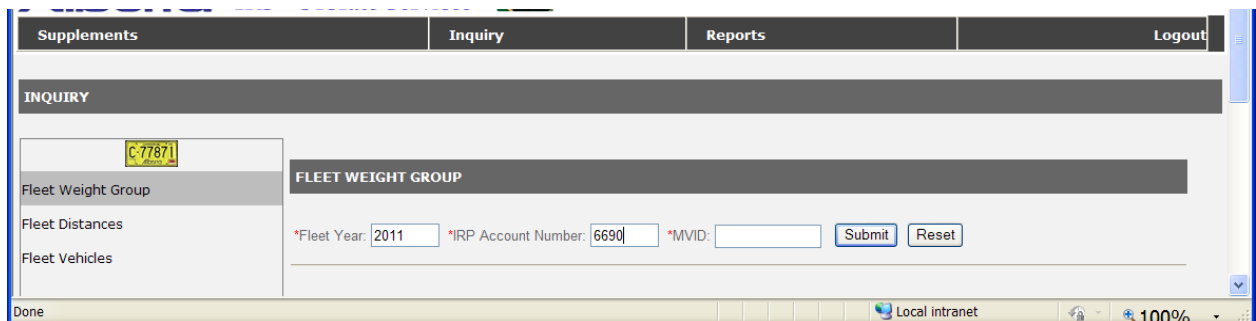

2. The **Fleet Weight Group Search** screen will display.

3. Enter a current or historical *Fleet Year*.
4. Enter the *IRP Account Number* or *MVID* for the carrier.

❶ MVID may be entered in free format (just the numbers).

5. Select [Submit].

6. The **Fleet Weight Group List** screen will display.

7.1.1 Renewal Invitation

- No data entry required. This document contains general information pertaining to submitting renewals.

7.1.2 Blank Renewal Forms

- No data entry required. You will be able to print forms required for making changes to your fleets.

7.1.3 Fleet Activity by Supplement by Fleet year.

Purpose

This report provides a list of supplement transactions in a given fleet year for a given carrier and optional fleet. This would include showing vehicles included in new fleets or fleet renewals. The dollar amount fields will be totalled for the supplement and for the fleet.

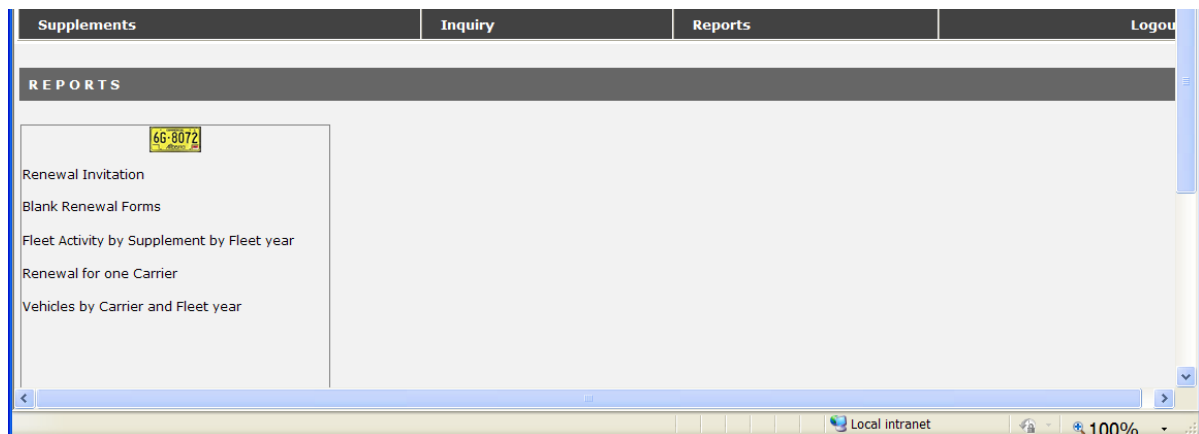

Report displays Transaction Status, Effective Date, Transaction Type, Unit, VIN, Canadian Dollar Amount, and U.S. Dollar Amount, grouped by Fleet Number, Supplement Number, and Supplement Type.

Grouped by fleet number and supplement number.

Process

To produce the report:

1. Select **Reports** from the menu bar.

2. The **Reports Menu** screen will display.
3. Select **Fleet Activity by Supplement by Fleet Year** from the Report Menu.

4. The **Fleet Activity by Supplement by Fleet Year** selection Screen will display.

5. Enter a valid *IRP Account Number* or *MVID*

6. The following additional filters can be selected to refine the data reported:

- The *fleet number* for the *MVID* or *IRP Account Number* can be entered.
- A specific *supplement number* for the *fleet number* can be entered.
- A *supplement status* can be entered.

❗ Any of the above criteria can be left blank to obtain all data or a specific value can be entered to limit selection.

7. Enter a current or historical *Fleet Year*.

❗ [Reset] will clear the search criteria and position the cursor at *IRP Account #*.

8. Select [Run Report]. Report will open in a separate window.
